

A photograph of four potted plants arranged in a row against a light gray background. From left to right: a small cactus in a silver metal pot, a tall cactus in a white ceramic pot, an aloe vera plant in a white ceramic pot, and a succulent in a silver metal pot.

# Design Thinking with the Luma Workplace

Steph Schuman

# Picture This

Your supervisor asks you to find an innovative solution to a problem.

Where do you even begin?

# Design Thinking

- Problem solving and innovation
- Human-centered design
- Quick rounds
- Sticky notes
- Drawings

# LUMA Workplace

- 36 Human-centered design methods
- People-focused above all else
- For problems of all sizes
- Video tutorials
- Printable templates
- Use sticky notes and drawings

# Recipes

Icebreaker

Looking

Understanding

Making

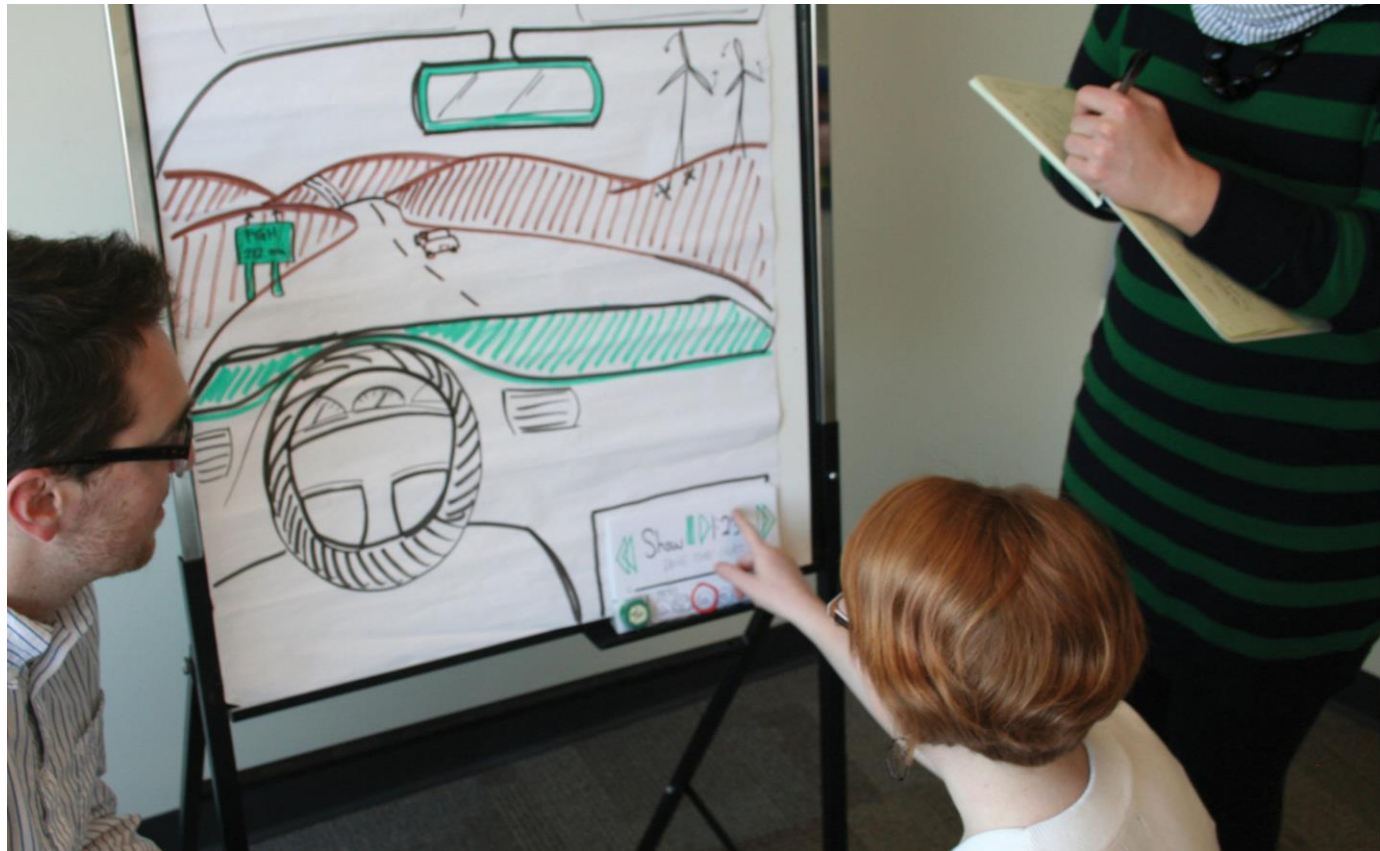

# Looking

## Observing human experience

- Ethnographic Research
  - e.g. Interviewing
- Participatory Research
  - e.g. buy a feature
- Evaluative Research
  - e.g. think-aloud testing →

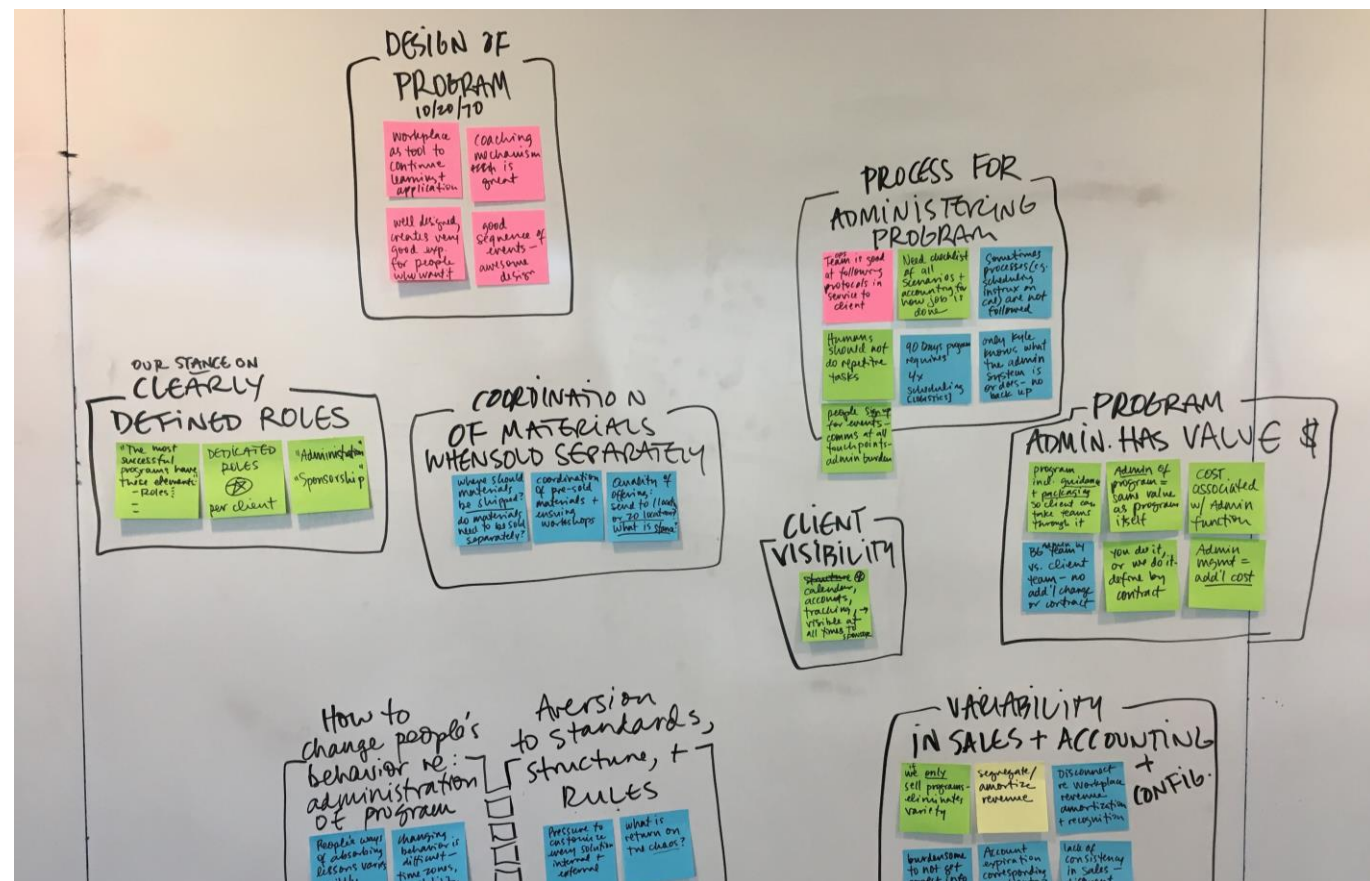

# Understanding

## Analyzing challenges & opportunities

- People & Systems
  - e.g. concept mapping
- Patterns & Priorities
  - e.g. affinity clustering
- Problem Framing
  - e.g. rose, thorn, bud →

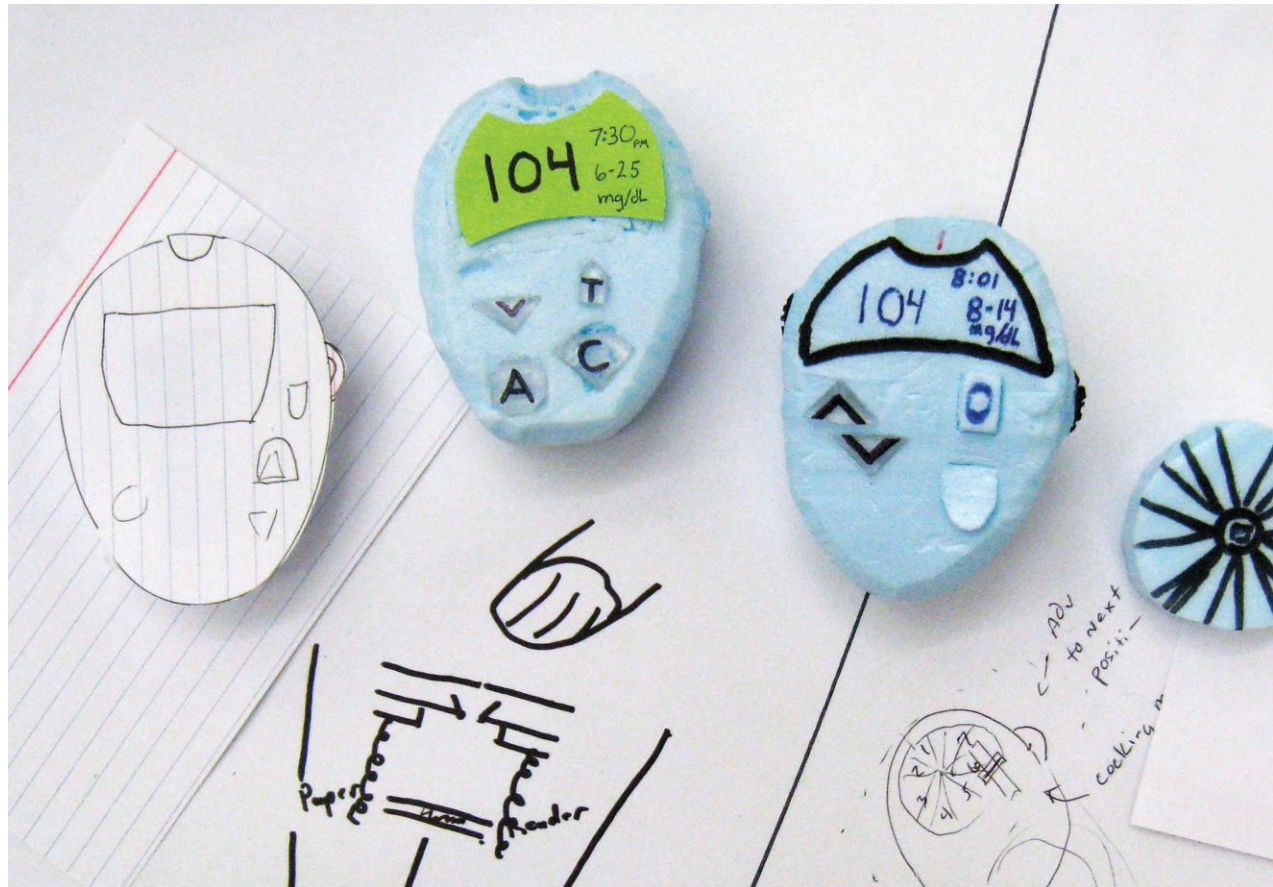

# Making

## Envisioning future possibilities

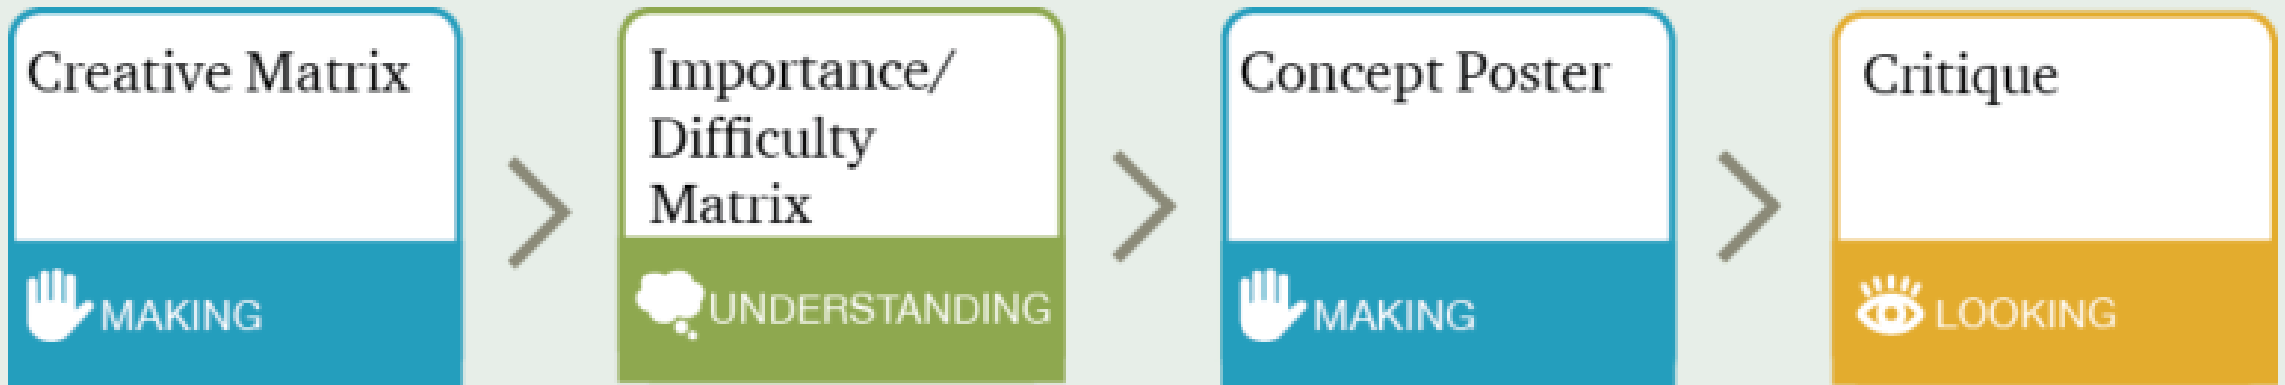

- Concept Ideation
  - e.g. creative matrix
- Modeling & Prototyping
  - e.g. rough & ready prototyping →
- Design Rationale
  - e.g. concept poster

# Example Recipe

Improve student engagement in the community

# Creative Matrix

## People/problem statements

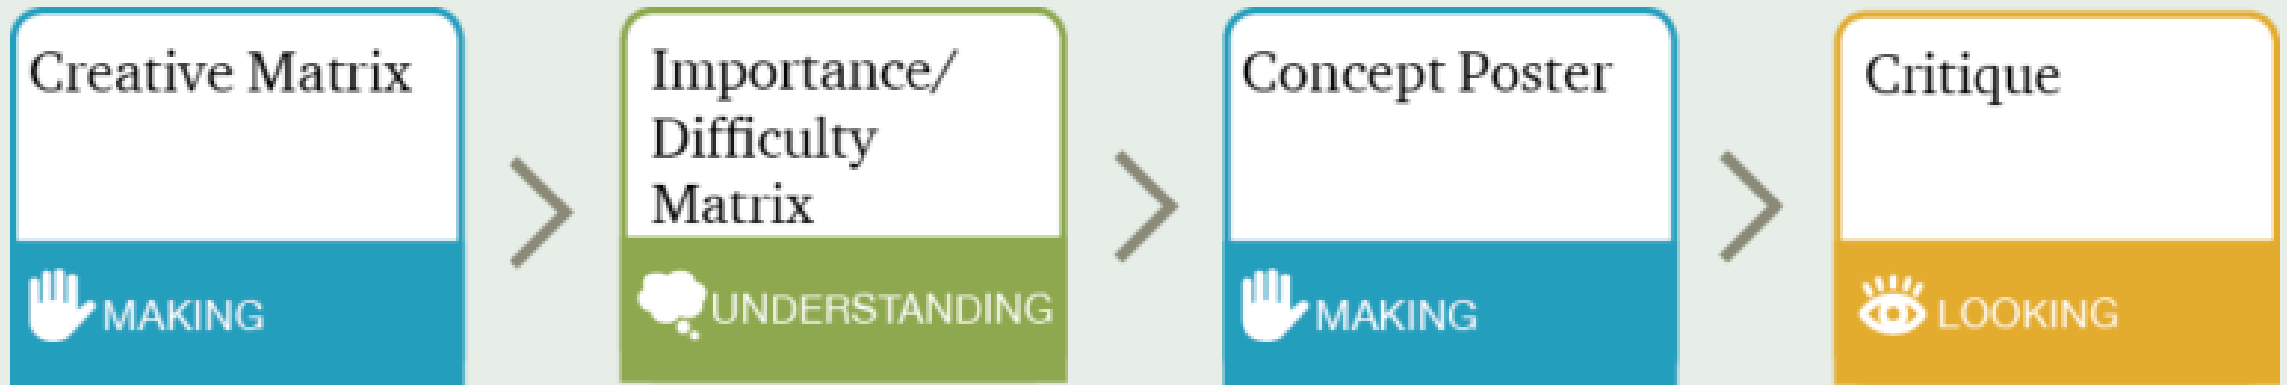

## Enabling solutions

| OVERALL TOPIC<br>How might we become famous for our student engagement in the community? | <br>How might we spark student interest in local issues?                                                                                                                                                                                                                                          | <br>How might we increase student attendance at meetings and forums?                                                                                                                                                                                                                                                                                               | <br>How might we expand student participation in elections?                                                                                                                                                                                                                                | <br>How might we encourage service work and volunteerism?                                                                                                                                                                                           |

# Activity

- Prioritize features of your ideal workplace using a Bull's-eye Diagram
  - Can easily think all features are of equal importance
  - The primary circle is only so big
  - Must deliberate critical features
  - Video tutorial

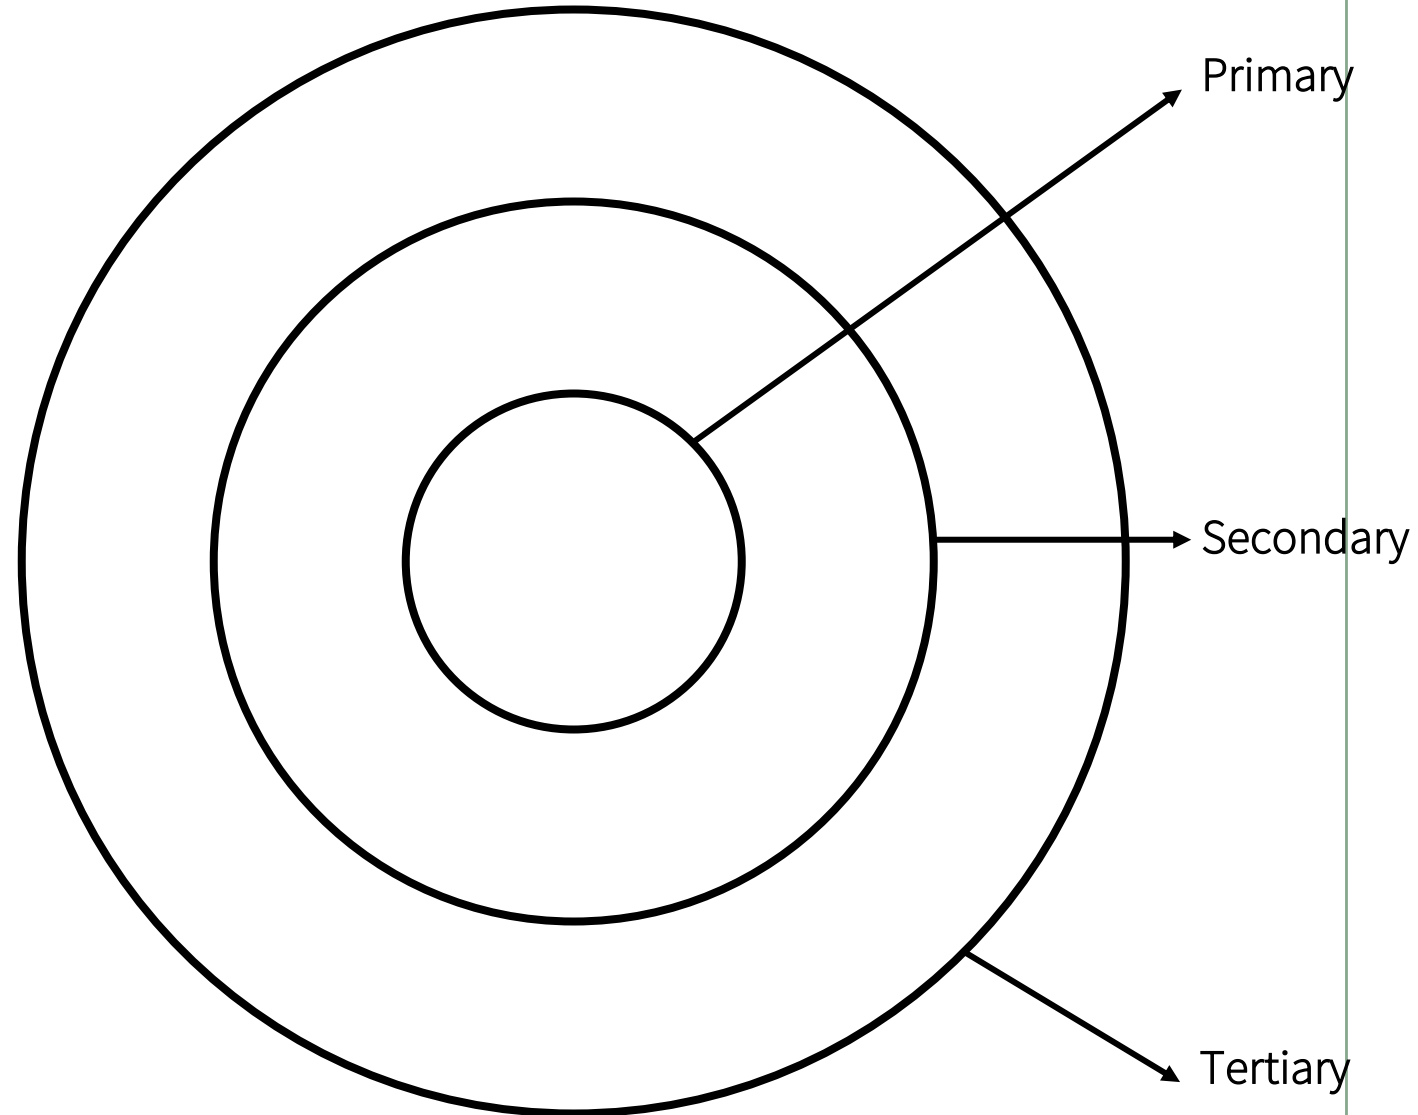

# Activity

# Activity

- Spend 5 minutes creating a list of potential features of an ideal workplace
  - On a sheet of paper or sticky notes
- Spend 10 minutes placing the features on the Bull's-eye Diagram
  - Cut features from paper or add sticky notes

# Thank you
